STRIP CEILING

GPANEL 102 strip ceiling is expertly roll-formed from premium colour-coated aluminium or PPGL coils, ensuring exceptional coating durability and superior structural strength. Its smooth, refined finish enhances the visual appeal of any space while providing long-lasting resistance against weathering and corrosion. Engineered for versatility, GPANEL 102 is the perfect choice for high-rise buildings, shopping malls, hotels, convention centres, and showrooms. A ceiling defines the character of a space — more than just an overhead surface, it shapes the ambience, style, and comfort of its surroundings. With thoughtful design, a well-crafted ceiling not only enhances aesthetics but also delivers excellent acoustic performance, creating a luxurious, modern, or classical atmosphere. With GPANEL 102 strip ceiling, you can achieve a serene and stylish interior or exterior environment that elevates comfort and relaxation, transforming every space into a lasting expression of elegance.

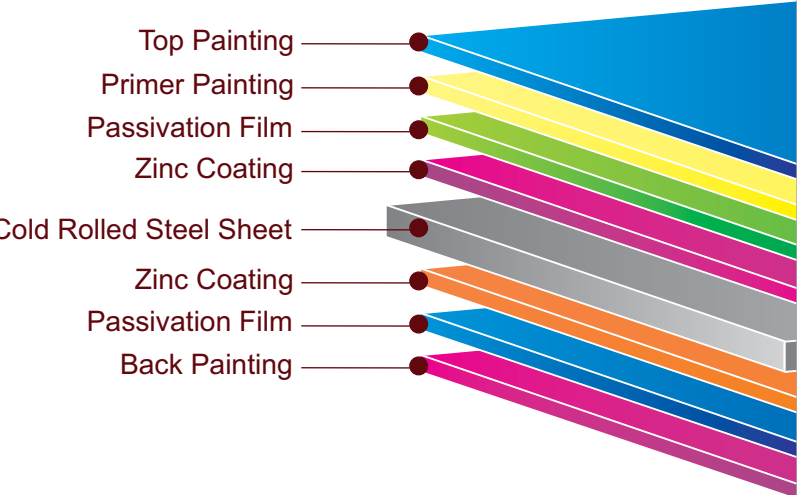

PROFILE SPECIFICATION:

MATERIAL SPECIFICATION:

GPANEL 102 is manufactured from high-quality steel coated with Galvalume — a premium alloy composed of 55% aluminum, 43.5% zinc, and 1.5% silicon. This advanced coating provides exceptional corrosion resistance, offering up to three times the lifespan of conventional galvanized steel. Engineered for durability and performance, GPANEL 102 is ideal for applications that demand superior protection, heat reflectivity, and long-term reliability even in the harshest environments.

MATERIAL PROPERTIES:

SUBSTRATE	GRADE OF STEEL (MINIMUM TENSILE STRENGTH MPa)	BASE METAL THICKNESS-BMT (MM)	TOTAL COATED THICKNESS-TCT (MM)	EFFECTIVE WIDTH COVER (MM)	WEIGHT PER METRE (KG/M)±5%	RIB DEPTH (MM)
AZ 150	550	0.42	0.48	102	1.61	14
AZ 150	550	0.48	0.53	102	1.82	14

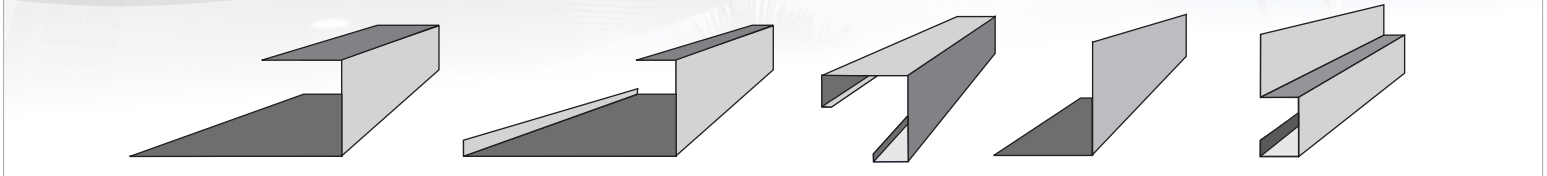

COLOR SELECTION:

ACCESSORIES:

Accessories are the additional components needed to complete installation. Length available up to 12' (3.660m), subject to transportation limitations.
